(54) Title: A MOBILE FIRST AID POST

(57) Abstract: A mobile first aid post comprising a road vehicle having a compartment of an openable enclosure for housing medical supplies and equipment, the compartment including a fixed structure and at least one rigid panel pivotally movable relative to the fixed structure between a closing condition where the panel defines at least part of a side wall of the enclosure and an erected condition where the panel is in a substantially or near horizontal condition creating an opening and providing a region covered overhead for a person positioned adjacent the side of the vehicle, and wherein medical utilities selected from one or more of compressed air, suction, water, and oxygen are provided accessible by a user from the downwardly facing major surface of the panel aiding in the treatment of patients positioned below the panel. The panel may also be of an extendable type. Sideboards may also be included acting as a seat to personnel inside the compartment in a first condition and as a step up for people entering and leaving the compartment in a second condition.
